Presidents Message

Wow how fast the summer is moving, seems like it was winter just a few weeks ago! So far the weather has not been to cooperative this year, I think about every spot in the state has been wet and the rivers out of their banks. Let's hope that this weather will straighten out soon so we can save what we can.

Well the 2015 Red Power Round-Up is in the history books and despite the weather was a great show. All of the final numbers are not in yet but there was over 20,500 through the gate with around 1,000 exhibits. The Missouri State Fairgrounds was a perfect location with all of the historic buildings and well laid out grounds, I heard many comments on the beauty of the fairgrounds. This show would not have been possible without the help of so many great people, I can't even begin to thank all of the people involved for it would take the whole newsletter but I would like to thank North East Missouri Old Threshers of Shelbina, MO, Missouri River Valley Steam Engine Assn. of Booneville, MO, Ohio Chapter #6, South Dakota Chapter #21 and Alabama Chapter #23 for all their help without these groups the show would have not went off as well as it did. I would also like to personally thank several people that helped me get through this show, most of all Jim and Linda Bogart, Bert Smith, Amy Perkins, Penni Weiss, Bob Buxton and the staff of the Missouri State Fair, there are many others but these folks really helped me through the show, thank you!

We did not have a second quarter membership meeting because of the RPRU, our next membership meeting will be held at my house August 15th there will be a meal provided by the chapter and I will have my collection open for viewing. At the meeting we will be voting on the location of the 2017 state show which at this time is between Montgomery County Old Threshers and Platte County Steam and Gas show. Also we will be voting on directors, those with terms that expire will be John Wolfe, Tom Lindley and Myself. Tom has decided not to run for another term, John and I will seek another term. Also we have had three candidates nominated Rob Gooding from Cairo, MO, Greg Harrell from Sedalia, MO and Joey Perkins from Clark, MO, we will also accept nominations from the floor. All of these folks would be great for the chapter, the best of luck to them.

Also if you have not noticed we have a new newsletter editor, Bert Smith has took over the duties as editor and I know she will do a great job. I would like to thank Janet Williams for her years of hard work, she brought the newsletter a long way and it has been appreciated, thank you Janet.

Membership Secretary

Man do we wish this rainy weather would stop for a while and let us actually enjoy our summer with some nice 70 degree days.

We currently have 354 paid members, in which 28 of them are our new members that joined during our 26th Annual Red Power Round Up in Sedalia, MO. Thanks to all that joined us for a great show and joined our Chapter as a member.

Please remember that your membership runs from January 1st until December 31st. If you have not renewed yet please take the time to do it now. You can look at your last membership card and if your label says 01/15 then you have not renewed for the 2015 year.

Hope to see everyone, August 15th at our meeting.

If I can help in anyway with your membership, please let me know.

“Pretty in Pink” in the Fight of Breast Cancer

The Pink Display of Tractors during RPRU 2015

As I am sure, many of you know about Penni Weiss's "Pretty in Pink" tractor and raising awareness for Breast Cancer. She has been displaying her tractor for over four years now. Each year her tractor is displayed near Bennett Springs for the Pink Team Princess Retreat. All money raised in parades or contest is donated to a local breast cancer group to help others. What many of you may not know is that Penni has been interviewed during the 2012 RPRU in Iowa. If you would like to see the interview of Penni on *Small Town Big Deal*, go to their website, click on episodes, then 25-Oct-12 to see the RPRU at DuQuoin, IL.

This awful disease has affective some of our members, our mom's, sisters, aunt's, cousins, and close friends. In an effort to raise money for the Bothwell Regional Health Care, Penni and Linda Bogart had a pink tractor display. By the end of the show we were blessed to have a total of five pink tractors and raffled off a pink pedal tractor. Linda has agreed to share her story and the reason behind her pink tractor.

My Pink Tractor story:

When I got involved in RPRU2015 and there was talk about doing a special Pink Tractor display for breast cancer awareness, I just knew that we had to paint a tractor pink. It took a while to decide which one we wanted pink but at that time Jim was working on an International 424 diesel. When he got it running and it was time to paint it, I got to thinking it would be a sweet one to paint pink. Number 1 - it is a 1966 - the year I graduated from High School, and Number 2 - it is a utility tractor - which was more along the lines of the tractors I grew up driving on the farm, cause you know the boys (my brothers) drove the Big tractors and worked the fields. Us girls drove the utility tractors and helped feed livestock.

I wanted to paint one pink for breast cancer awareness because breast cancer has impacted my life in ways it is hard to talk about. Until 2001 I had felt pretty safe because there had never been a family history of breast cancer in my family. In 2001 my mother got diagnosed with breast cancer at the age of 79. It was a very rare form called inflammatory breast cancer that presented itself with a terrible rash that they treated as shingles for 6 weeks before finally realizing it was cancer. Mom lost her battle at the age of 80. In Aug 2010 my younger sister was diagnosed with breast cancer. She had a mastectomy, did chemo and radiation and seemed to be doing well for several months until Thanksgiving 2011. At that time she started to go downhill and they discovered cancer in her liver. We lost her Feb 2, 2012 at the age of 60.

I HATE Breast Cancer! I don't want anyone to go through what these two special people in my life went through. So our International 424 is painted Pink in Loving Memory of Mom (Vella Hessman) and Sister Mary Kay Johnson.

Linda Hessman-Bogart

Linda's tractor on display during setup

Jim Bogart on Linda's tractor

In Memory of MOM

FFA Project

For those of you who do not have Facebook. Here is our pink pedal tractor winner and a thank you from her mom.

If you had stopped by the Pink display, they were raffling off a pink pedal tractor to help fight breast cancer. This is the winner on her new tractor.

Sweetest little girl ever, Kinley from LA.

Sooooo proud of her new pink pedal tractor that she won Saturday at the Red Power Round Up. All proceeds goes to Bothwell Regional Cancer Center in Sedalia, MO

Kinley on her pink Farmall with Linda Bogart's tractor

Thank you from Kinley's mom, Mandy.

On behalf of my daughter, Kinley, and our entire Louisiana Chapter 31 family, we want to thank you all so much for your hospitality at the show last week! We had an amazing time and met some wonderful people! Kinley's trip was made when she won that pink tractor! Now she can proudly say she has her very first Farmall!

Note from Our National President

The Red Power Round Up is over and what a success. Every member of the planning team should be proud of the results of the many hours spend to make it happen.

I personally want to express my appreciation to everyone who helped. The comments I have received has been extremely positive. The State Fair officials said the Round Up was one of the better organized and planned events held on the grounds. The Missouri Cattlemen were extremely happy with the business at their Steakhouse. The latest issue of the Missouri Cattlemen's magazine mentioned the Round Up and how successful it was. The cattlemen told me more than once how great the tractor folks were. One of their comments was "these folks are just like us (rural farm people)".

The help and support provided by the Booneville and Shelbina clubs was tremendous. Their work contributed greatly to the overall success.

During the show and afterwards I have received many positive comments. A lot of the comments was on how great the grounds was. "The old brick buildings was a perfect setting for a Round Up." Everyone on the grounds and in town were very nice and helpful." Many comments were also received on the great parades, women's activities, the vendors, and the many great displays.

Every display area had positive compliments. This included the Nebraska Cowman's fair tent feature, memorabilia, tractors, scouts and trucks, cadets and engines. Enough cannot be said for the many great people who worked as a great team to make this happen. In a person's life we all have a few chances to be part of something great and this is one of those times. Enough cannot be said for the dedication and many hours of work done by Jim Bogart and Andrew Dawson.

Bob Buxton

Thank You from Penni!!

I would like to take this opportunity to thank all the wonderful members who stopped by and helped at the merchandise tables during the RPRU. We could not have done it without you. A special thanks goes to the following members who went above and beyond to ensure our success. Tom and Mary Ann Lindley, Steve and Linda Leonard, Mary Shoemaker, Betty Hutton, Pat White, Becky Hansen, Harold Eschenbrenner, Megan and Helaina Weiss and Tim Weiss. While we had a great time interacting with the crowd, it was not all fun and games, as I am sure there will be many memories of sore feet, backs and butts. Rumor has it that Tom, Steve and Harold are going into the mechanical air conditioning business and Mary Ann might start a barrel train. We were fortunate enough to sell over 800 T-shirts, and sweat shirts, 350+ hats (all but about 15 of the summer baseball caps) and close to 300 show toys. We still have some winter hats, key chains and hatpins, so if you did not have time to get yours during the show I will have them at our meetings or can ship them to you. I have had several inquiries about purchasing additional RPRU 2015 T-shirts, unfortunately we are unable to purchase any more of the T-shirts using the original contract, and a new contract for a very small number would increase the price of the shirts astronomically. A special thank you to my husband and copartner Randy, I couldn't have done any of this without you, I Love you! And lastly

to all of you whom conspired behind my back in reference to the surprise banner and pink toy tractor gift for my birthday, I want to express how grateful and surprised I was, thank you all from the bottom of my heart I love my IH family.

Penni

P.S. Not everything was work at the RPRU....To all of you who have schemed (you know who you are) and pulled off the kiddie pool, chair and the sign, that was a lot of fun and a GREAT conversation starter in the chapter building. Thank you for everything!!!!!!

If you would like to send any story, thank you, notices, wanted/for sales items, current events, or recipes for the newsletter please send to ihcc1news@gmail.com or mail to 311 S. Center St., Shelbina, MO 63468

Recipe Corner

We would love to have recipes from our IH family. Send us your favorite recipe or a recipe that has been passed down in your family to share. To share your recipe, please email to ihcc1news@gmail.com or mail to 311 S. Center St., Shelbina, MO 63468

Open Peach or Plum or Blueberry Cake – Penni Weiss

1-lb. Butter (Do not Melt)	6 – Eggs (3 whole & 3 yokes)
5 cups flour	2 cups sugar
3 teaspoons baking powder	About ½ cup milk

Mix the above together, will be thick and sticky. Grease a cookie sheet and spread the dough out. You will need to spread this thin.

On top – Peach or Plum
Slice the fruit and place on top of dough.
Sprinkle with white sugar & cinnamon

On top – Blueberry
Mix blueberries with ½ cup sugar then add 1 egg yolk and 2 tablespoons tapioca
Bake at 350 for 35-40 mins.

My kids just love this meatloaf, serve it with oven brown potatoes and there is never any leftovers. Enjoy Bert

Cheesy Meatloaf

½ C chopped onions	8 oz. can Tomato sauce
2 beaten eggs	2 C diced Velveeta Cheese
1 ½ slices bread crumbs	1 tsp salt
¼ tsp Thyme	2 lbs. ground beef

(I use a can of crushed stewed tomatoes in place of onions, for those that like green peppers)

Pre heat oven to 350°. Combine all ingredients above, mixing well. Shape into loaf in baking pan. Cook for 1 ½ hours. Last 30 minutes cover with ketchup if desired. Serves 8 – 10 people

Visit the Chapter 1 Website at
www.showmeihc.com

Story from Members

We would like to ask members to send us their stories. These can be about restoring a family tractor, a family IH business, etc. To submit your story and pictures email to ihcc1news@gmail.com. Please enjoy this story from fellow member Carl Crabtree, grandson of Cameron Morrison about his families business.

Morrison Truck and Tractor

Morrison Truck and Tractor began in Odessa, MO in 1937. An article in the local paper read, “Cameron Morrison and Richard Fieth of Higginsville will open an implement shop here... The new firm will begin operation August 1, handling the International line of farm machinery.”

It was bold to open an implement shop on the heels of the great depression. The story is told that the former shop owner abandoned his business probably due to the financial climate of the time. Morrison was a farmer raising livestock and crops in and around the Odessa and Higginsville area. One day when he went to Odessa looking for parts, he found the business closed.

The company was first known as Fieth and Morrison Implement. Sometime in 1942, the business became known as Morrison Implement Company. In December 1945, the Christmas ad in the local paper read, “Morrison Truck and Tractor”, a name it would carry until the business was

sold in 1967.

In the 1960s, International Harvester Corporation was consolidating local dealerships with the goal of one per county. For a short time, Morrison merged with the International Dealership in Higginsville, Mo, owned by Leonard Robey. They maintained two locations. On July 13, 1967, Morrison held a three day auction of all parts, shop equipment, machinery, and tractors. Morrison retired to working around his farm north of Odessa, and he and his wife Mildred traveled and enjoyed fishing.

Cameron and Mildred raised 5 children. Many family members worked with the business over the years performing various functions such as accounting, sales, delivery, and repair. It was truly a family business Morrison did not just sell tractors, trucks, and machinery. In 1939, several ads in the local paper offered Speed Queen Appliances for sale as well as Columbian Red Top grain bins. Along with many sales ads for International appliances, Whirlpool appliances were added in the mid-1950s. American brand woven wire was also sold as were McCulloch chain saws and Alemite grease products.

A personal ad in the January 2, 1942 paper asked farmers for patience as parts and machinery were in short supply. Later ads after the war noted frustrations with labor strikes, high demand for tractors and implements, and pricing policies. Early 1960s ads promoted the use of more soil conservation practices.

A March 10, 1966 ad invited local farmers to attend an “evening smoker” featuring the Farmall 656, 816 mower-windrower, 27 hay baler, 105 combine, and a 234 corn harvester. Refreshments were served. For the record, a “smoker” was a social event where farmers were invited to view the new equipment and bring their favorite cigar to smoke!

Carmen Crews Morrison, oldest daughter of Cameron and Mildred recalls the following about her work in the family business: “In 1943, after graduating from high school, I went to work for my dad. At that time the parts department was just thrown bins. Memory was the only way parts were found; a very poor system. It was this time that a perpetual inventory was formed. I made file cards with each part number listed on the card, how many of each number we wanted to carry, the name of each part, and did an inventory of all parts. Each day I would post how many new parts came in, how many parts we sold the day before, and ordered what we needed from the file. I enjoyed doing this and also taught

Carmen also waited on customers and learned much about machinery. “One of the greatest rewards working for my dad was meeting so many customers, mostly farmers. They were great.”

You can find more stories about Morrison Truck and Tractor, old sales ads, pictures of the buildings and more by visiting www.carlietree.com/MTandT

This picture is from the early 1950s.

Upcoming Events

Mark your calendars for these great upcoming events. If you have an event in your area that you would like to add please send to me.

Thank You!!-!

Everyone should be so proud of the show that we put on in Sedalia. Wanted to share this thank you we received from a Chapter 43 member.

Dear Chapter One,

My daughter and I traveled out from South Carolina to visit the RPR in Sedalia. Spent 2 full days, Wednesday and Thursday. Everything was well organized and it was evident your chapter spent a lot of time in planning and preparation. My daughter was very pleased to attend many of the programs especially for the ladies. The Missouri state fairgrounds location was of special interest. As for me I always enjoy seeing new to me tractors that have been saved and are part of someone's collection. The vendors had bargains and I found some parts I had been looking for at least two years. (Mailed them back via mail). I have several of the letter series tractors since I grew up working H and M's working on Dad's farm as far back as the 50's. Flying back to SC from KC, my daughter and I discussed that this is one of the best RPR that we have attended. Great job!

Sincerely,

Paul Felker, member of Appalachian Chapter No 43 based in Hendersonville, NC

Harvester Heritage at RPRU 2015

Dan Kennedy, Ron Schmitt and several other hard working individuals have started a new program called "Harvester Heritage". This programs main purpose is to document and preserve the "stories" of former IH dealers and employees. We asked Dan to explain how the program works and how people can go about summitting their stories.

"Harvester Heritage" at RPRU 2015 & Future Plans

**** By Dan Kennedy****

Five "Harvester Heritage" speakers and a great Reunion of former IH dealers, as well as former International Harvester employees and current dealer personnel, highlighted the HH program at RPRU 2015.

Since the "official" kick off of Harvester Heritage at the Michigan City, Mid-Winter Convention earlier this year the program has received enthusiastic support across the board.

The dealer and IH employee Reunion held June 11, 2015, continues to receive comments of appreciation with many people requesting that the "Reunion" become an annual event at all future Round Ups.

The team of "Harvester Heritage" speakers included the following:

Vaughn Allen – IH Manager & Navistar VP - Retired
Ed Powell – Territory Mgr. & Harvest Support Dir. – Retired

Bud Youle – Farmall World-Wide Mkt. Mgr. – Retired

Jim Minnihan – Axial Flow Combine Reliability Engr. – Retired

Tom Clark – Current Navistar Corporate Historian

Ed Powell - Pro Harvest Support Mgr.

The presentations were powerful and provided rich in little known facts about product decisions and happenings during the final days of the Harvester Company 30 years ago. These men were there waging a hard fought and courageous battle in an often emotional effort to overcome tremendous challenges in the final efforts to save the company. The “Harvester Heritage” seminar series also generated a lot of interest with many participants staying long after the presentations to ask additional questions of the retired IH and Navistar personnel.

In addition to the “Harvester Heritage” formal program at RPRU, the primary purpose of the program is to collect contract information and “profiles” of former IH dealer and IHC personnel. Ms. Sally Jacobs, McCormick Archivist at the Wisconsin Historical Society, is assisting.

Once our systems are finalized the data will be in a searchable format and linked to the McCormick Archives. We were pleased that several individuals did provide us with the requested contact information and profiles of their work history.

Please refer to following Harvester Heritage “Overview”

International Harvester Company and the world-wide dealer organization serving customers became one of the most significant organizations for the betterment of mankind

the world has ever known. There are many untold / undocumented "stories" reflecting the incredible contributions of IHC and related personnel that must be captured without further delay. Harvester personnel working in all capacities in the later years faced great challenges and excelled. Our purpose is to document as many of those as possible.

Dan Kennedy - Harvester Heritage

Bud Youle - Farmall Marketing Mgr.

At future National IH Collectors Club meetings such as Winter Conventions and RPRU's all former IH employees, as well as dealer personnel, will be invited to share some key career happenings with an interviewer or complete a profile sheet and submit their “stories” electronically or by mail. If you know of any former IH employees or dealers, please share this information with them. Even if they don't submit a story, have them send us their name, contact info and brief work history for documentation in the file.

Mission Statement:

Preserve for posterity the documentation of significant events particularly in the later years of International Harvester **Note:** In addition to our effort to preserving this living IHC history in the Wisconsin Historical Archives, we also plan to run selected stories in future issues of "**Harvester Highlights.**"

Feel free to submit multiple articles, however if possible limit all articles to 500 words or less to minimize editing for “Harvester Highlights”

Jim Minnihan - IH Axial Flow Engineer

articles, etc. Please know that if necessary, longer “stories” are welcome. We do reserve the right to edit articles as required to fit formats

Please forward items by email or by mail to:

*Joe Neville - 319 668 9424 (bandjoe@mchsi.com)

*Ron Schmitt - 316 789 9825 (yvonne_joyus@yahoo.com)

*Rich Nelson – 605 332 3158 (richard.l.nelson@sio.midco.net)

*Dan Kennedy - 785 456 5964 (dancarolk@gmail.com)

Ron Schmitt 2300 Timber Creek, Derby, KS 67037

Joe Neville 1201 W. State Street, Williamsburg, IA 52361

Dan Kennedy 5330 Sumner Ct. St. Mary’s, KS 66536

Dealer Reunion - Dan presents award to Vaughn Allen retired IH Manager & Navistar Vice President while others including Navistar / IH Historian Tom Clark (second from Left) look on.

Follow us on Facebook at
International Harvester Collectors Missouri Chapter 1

Wanted/For Sale

For Sale: a friend of John Puckett, who lives near Potosi, MO, has two old IH trucks, which he wants to sell:

1952, which is rougher. It currently has a dump bed, but according to the Air Force property tag on the dash originally had a platform bed with sides - picture at <http://home.centurytel.net/ejpuckett/For%20Sale/Steve/1952/>.

He does not know their value, but would like for them to go someplace other than a scrap yard. If any of your members are interested, his name is Steve Hicks, 573-438-4629.

For Sale: Rear Steel wheels for Farmall F-12, lugs worn. \$100. Contact Andrew Dawson at ihtractors@yahoo.com or 660-346-0319

Send all items for sale or that are wanted to ihcc1news@gmail.com or mail to 311 S Center, Shelbina, MO 63468.

Editor's Corner

First and foremost, I want to thank Janet Williams for helping me and making the transition to newsletter editor so easy.

I had the pleasure to meet several of you during the RPRU and several more have known me for years. I am Bert Smith, I live in Shelbina, MO with my two children. My son, Jesse, who just graduated from high school and will be attending Missouri Welding Institution in the Fall, and my daughter, Katie, who will be in the seventh grade this school year. I have three grandsons; Hunter, Raymond, and Dean from my oldest son Ellis, who lives in Monroe City, MO.

I work for the Monroe City R-1 School District with 8-5 grade Special Education students. I have been working with Special Education students for the last 16 years. I love working with these very special students.

I have been a member of the Northeast Missouri Old Threshers since 1994. This year I became the secretary, I am the tour coordinator for the last four years, and have been the Historian/Webmaster for the last nine years.

I look forward to being the new newsletter editor and learning more about everyone. In an effort to continue this clubs great strides, I will be adding some new features to the newsletter. I am asking ALL members, not just the women, to send me your favorite recipe to share with everyone. In addition, I would love to have stories from members; restoring a family tractor that has been passed down, about an IH dealer/business in your area, or one that was in your family. If there is a special section you would like to see in the newsletter, let me know and I will try and make it possible. Please send any information to ihcc1news@gmail.com, or 311 S. Center, Shelbina, MO 63468
